

November 23, 2025: Letter to Governor Greg Abbott

Dear Governor Abbott,

I am writing to continue to alert you to the fact that our home has become surrounded by a gang of criminals that drive vehicles past it at all hours of the day and night.

After joining the Republican Party of Texas and becoming elected as the Precinct Chair of my precinct in San Antonio, Texas, our home came under the surveillance of a spying network that is using its spying tools inside of our home and is driving cars past the front of our house to intimidate us and give us the impression that we are being 'watched' at all times.

I am an attorney that filed numerous lawsuits to investigate the voting results that were being reported across Texas after the 2020 election and now I am the victim of a very large campaign of intimidation and criminal oppression of our home from a network that is clearly connected to Donald Trump and the United States military.

I am continuing to write to you to inform you that I believe that the United States government appears to be acting in a completely unlawful manner under the thin veil of a network of criminals and borderline legal personalities.

The problem has been going on for so long, and despite so many efforts by my self to reach out to agents of our police and government, that I am writing to alert your office that the USA military appears to be operating in a criminal manner along with Donald Trump's administration to exert itself as a coup de tat over America.

I have been enduring this spying presence since 2022. I have been writing letters to my representatives for a very long time now seeking help to push this team of criminals away from spying on the interior of my home and from driving hundreds of vehicles past my home every day to prove it.

This is nothing short of a totalitarian nightmare being forced over our home life by the Donald Trump administration which is heading up your Republican Party of Texas.

Since writing to your office numerous times, and receiving no response, I am no longer supporting your current administration and I do not support your campaign to be re-elected as our State's governor.

However, you still have an obligation to protect the safety and security of the citizens of Texas by working to ensure that the federal executive branch that is being run by your political party is not exerting itself over our home as a Nazi rapist.

Unfortunately, this is the image that is being portrayed to me as we are forcefully interacted with by an unwanted entity that persists, each and every day, to drive messages into our home as threats, insults, and general agitations.

I have reported this activity to the FBI twice, to the Texas Rangers numerous times, and to the San Antonio Police Department as well. No law enforcement agencies have been willing or able to help me as this gang of criminals continues to receive spying information from inside of my house and then reflect it into the world around me at all times.

The problem has only grown worse as his team has discovered that there is absolutely no accountability for his actions. I am alerting your office that this appears to be a Nazi coup de tat and it is causing serious harm in the community.

PLEASE ALERT YOUR REPUBLICAN PARTY TO DIS-ASSOCIATE FROM DONALD TRUMP AT ONCE!

Sincerely,

Chris Noel Carlin
